Dear Mrs. Grandy.

Over here and having
a mighty good time.

It seems however that as-
king favors is an endless
proceeding for me.

I have run away from
my tent and have discovered
that the wrench which
Albert (the Mexican boy who lives in
that little shack.) is to use Wed-
nesday for turning on the
fire-plug has been left on
my table.

I am enclosing the key
and would appreciate, if

one of the girls would go over and get the wrench and give it to Albert, some time before Wednesday morning.

I hope my horses have not made any additional trouble for you.

I have often thought since arriving here what a glorious time the girls would have if they were here. There are, sure plenty of girls their age here now and believe me they are having the times of their lives.

Will see you again soon.

Thanking you in advance
for your trouble I am
Respectfully,
Victor A. Johansen
